1 legal officer again.

2 The additional responsibilities I
3 picked up in that move include functioning as a
4 general counsel for each of the operating
5 companies in the Mylan Laboratories group.

6 Those other companies include Mylan
7 Technologies, Incorporated; Mylan, Inc.; and UDL
8 Laboratories, Incorporated.

9 So now in addition to functioning as a
10 general counsel for Mylan Pharmaceuticals, I have
11 that role for those other companies.

12 Q. And as general counsel of each of these
13 corporations you're generally responsible for all
14 of their legal affairs?

15 A. Yes.

16 Q. Okay. Where is Mylan Laboratories
17 located?

18 A. Mylan Laboratories' headquarters is
19 just outside of Pittsburgh. The address is 1500
20 Corporate Drive, Canonsburg, Pennsylvania 15317.

21 Q. And Mylan Pharmaceuticals,
22 Incorporated, where is that located?

1 A. Mylan Pharmaceuticals' headquarters and
2 main facility is in Morgantown, West Virginia.

3 Q. I think you mentioned a UDL
4 Laboratories, Incorporated. Where is that
5 headquartered?

6 A. Rockford, Illinois.

7 Q. And you mentioned, I believe it was,
8 Mylan Technologies, Inc. Where is that
9 headquartered?

10 A. St. Albans, Vermont.

11 Q. Okay. Have you ever testified
12 previously on behalf of Mylan Laboratories or any
13 of its subsidiaries?

14 A. Yes.

15 Q. If you would, would you take me through
16 the various times you've testified on behalf of
17 Mylan Laboratories or its subsidiaries and just
18 relate for me whether it's a deposition or a
19 trial and the case or matter that you were
20 testifying in.

21 A. All of these are going to be
22 depositions. I've never testified live at a

1 patch, but it's a fairly small product.

2 Q. And if we could, focusing on the kind
3 of operational relationship between the various
4 corporations, as I understand it, Mylan
5 Laboratories, Incorporated, is a holding company.
6 Is that correct?

7 A. Yes. And by that, I mean it's the
8 company that owns the stock of its operating
9 subsidiaries.

10 Q. Okay. And Mylan Pharmaceuticals,
11 Incorporated, is an operating company. Is that
12 right?

13 A. I've used that phrase, yes, and by that
14 I mean the distinction in my mind, Mylan
15 Laboratories doesn't make or sell drugs. They
16 don't make or sell anything, really.

17 They have a number of employees, they
18 have assets, it is a fully functioning
19 corporation; but Mylan Pharmaceuticals actually
20 has distribution facilities, a manufacturing
21 plant, et cetera, so it's the company that
22 actually does the R & D work, obtains the FDA

1 approvals for our drugs, makes the drugs, and
2 sells them.

3 Q. And is it fair, is it accurate, to say
4 that Mylan Pharmaceuticals generates the vast
5 majority of the revenues of Mylan Laboratories,
6 Incorporated?

7 A. Over a period of time, yes, Mylan
8 Pharmaceuticals -- revenues from operations from
9 Mylan Pharmaceuticals make up most of the
10 revenues that Mylan Laboratories reports.

11 Q. And UDL Laboratories, that continues to
12 operate as an operating company?

13 A. Yes.

14 Q. And it's essentially a repackager?

15 A. Essentially, yes.

16 Q. I think you mentioned Mylan
17 Technologies at one point. What is Mylan
18 Technologies?

19 A. Mylan Technologies, Inc., is a company
20 that is focused on the development and
21 manufacturer of transdermal drug products, drug
22 patches that you wear on the skin.
